Summary:

Passionate full-stack developer skilled in Next.js, JavaScript, and Tailwind CSS. Experienced in building and maintaining web applications, with ongoing learning in Docker and system design. Proven collaborator with a strong focus on performance and scalability.

Technical Skills:

- **Front-End** : Javascript, ReactJS, NextJS 14, Redux, TailwindCSS.
- **Back-End** : ExpressJS, NodeJS, GraphQL, Typescript.
- **Version Control**: Git, GitHub.
- **DevOps** : Docker, Kubernetes.
- **Database** : PostgreSQL, MongoDB, Redis.

Experience:

Full-stack Intern - Weareengineer Pvt. Ltd. | March 2023 - October 2023

- Improved UI, implemented profile section, and optimized performance for the We Are Engineer website's dashboard and questions sections.
- Developed a healthcare-related project, including backend development with Express.js and Next.js, at We Are Engineer.
- Collaborated on cross-functional teams to deliver responsive and scalable web applications at We Are Engineer.

Front-end Intern - Bizzyka Pvt. Ltd. | January 2024 - April 2024

- Led the development of Bizzyka's ERP website, utilizing Next.js and Tailwind CSS to create a responsive and user-friendly interface, resulting in a streamlined workflow and enhanced user engagement.
- Developed and maintained the backend for a horoscope application using Express.js and Prisma ORM, ensuring robust data management and seamless API integration.
- Contributed to the Enablers website by implementing ShadCN UI components and optimizing frontend performance, leading to a 20% improvement in page load times and a more interactive user experience.

Projects:

[\[Link\]](#) **Ninjanex** - A scalable desktop application built with Electron.js, Express.js, and TypeScript.

- Developed a responsive desktop application using React, TypeScript, and Electron.
- Built and maintained RESTful APIs with Express.js, Prisma ORM, and PostgreSQL.
- Implemented robust development workflows with Webpack, Jest, and ESLint for efficient code quality and testing.

[\[Link\]](#) **Twitter Clone** - A full-stack Twitter clone built with Next.js, Express.js and Apollo server.

- Developed a responsive Twitter clone utilizing React, Next.js, and Tailwind CSS to deliver a seamless user experience.
- Built a robust backend with Express.js, Prisma ORM, and PostgreSQL, incorporating GraphQL for efficient data querying and management.
- Integrated Cloudinary for image handling, implemented Google OAuth for secure authentication, and utilized Tanstack Query for state management.

Education:

Shram Sadhana Bombay Trust | Jalgaon, Maharashtra | 2025.

Bachelor of Engineering (Computer Science) | Third Year | 7.8 CGPA.
